**UltraViolet Germicidal Irradiation (UVGI)
vs.
HVAC Warranty Claims**

**IS YOUR HVAC VENDOR OF CHOICE TELLING YOU ADDING AN ULTRAVIOLET
LIGHT (UVC) SYSTEM TO ITS HVAC UNIT WILL VOID YOUR HVAC WARRANTY?**

SanUVAire management understands its customers' needs and the apprehension associated with your HVAC vendor's forewarning.

SanUVAire has over 4000 UVGI air purification systems installed and working in transit vehicles and railcars nationwide and abroad. There has never been a warranty issue between any customer and its HVAC vendor due to or as a result of our UltraViolet Systems installed in the HVAC unit in all of our years of service.

SanUVAire is so confident in its UVGI product line that it will provide its customers with extra assurance and warrant HVAC parts damaged as a direct result of the implementation and use of its UVGI **Breathe-Safe Systems™**.

Our management hopes to assure its current and future customers that we are here to help, especially in these uncertain and unprecedented times.

Customers standardizing on UVGI technology for the protection and benefit of the ridership should not be threatened with UNSUBSTANTIATED concerns.

Stay Safe - Stay Well, SanUVAire's Executive Team
